

1st Toyota Foundation Urban Lake Project Workshop

“A New Concept on Water Culture Utilizing the Multi-Function of Urban Lakes in Jakarta Megacity”

October 27th, 2014

Conference Room E 107 East Building 1st floor

CSEAS, Kyoto University

This workshop shows the fruits of our research activities of the first year. Each team member will present research activity and results. Multiple functions of the urban lakes and planning for effective use will be discussed. The workshop is expected bring about a future design for several urban lakes in Jakarta Megacity.
